SENGA HERITAGE COMPANY PROFILE 02

The foundation beneath a growing *legacy*.

Senga Heritage is a multinational holding corporation with controlling ownership interests in a diverse group of operating companies — as well as the strategic assets that support their activities. *We do not sell goods or services. We build the foundation on which they stand.*

Our role is to serve as the foundation of the group — holding equity, safeguarding assets, and providing the governance, vision and financial strength that drive long-term value creation.

Through our subsidiaries and associates, Senga Heritage operates across key sectors including Mining, Construction, Mineral Trading, Commodity Trading, Technologies, Gold Refinery and Investment.

More than a group of companies, we see Senga Heritage as a living legacy — expanding with every generation, and leaving the world stronger than we found it.

The group is headquartered at Meydan Grandstand, Nad Al Sheba, Dubai — a hub connecting the capital of the Gulf with the resources of Africa.

MINING

CONSTRUCTION

GOLD REFINERY

MINERAL TRADING

COMMODITY TRADING

TECHNOLOGIES

INVESTMENT

A legacy of growth, built *step by step*.

Greatness is built in the depths, long before it appears above the surface. This is how the heritage took shape.

The beginning

Founded on faith & persistence

Infracons Group is established as the pioneer — a construction company delivering turnkey projects across Africa, and the cornerstone of the group.

Expansion

Growth across sectors

The group expands into mining, gold refining, trading, industry and technology — diversification embraced as a philosophy of resilience.

Integration

A fully integrated gold chain

From SH Mining & GEM to Knight Burkina to Samen — the group captures value at every link, from the mine to the market.

Today

A multinational holding

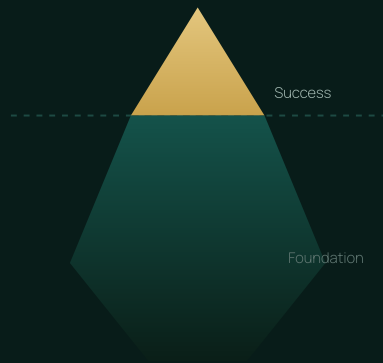

Nine operating companies across seven sectors, headquartered in Dubai — a bridge between the Gulf, Africa and Europe.

Tomorrow

A heritage for generations

Expanding with every generation, and leaving the world stronger than we found it.

Persistence is the true currency of *success*.

“Most people see success like an iceberg — only the small part above the water. Beneath the surface lies the true mass: years of struggle, sacrifice and lessons no one applauds. *Greatness is built in the depths, long before it appears above the surface.*”

“I did not begin this journey with wealth or privilege. I began it with faith. And if the road has taught me one lesson above all others, it is this: persistence is the true currency of success.”

“Build partnerships instead of chasing transactions, and pursue excellence instead of chasing income.”

“Integrity is not a limitation; it is a foundation. A deal won through dishonesty will eventually collapse, but a reputation built on trust becomes an asset that compounds for a lifetime.”

“Diversification is not just a financial strategy — it is a philosophy of resilience. Build broadly, and you build to last.”

Jean Bosco Ndayisenga

FOUNDER — SENGHA HERITAGE HOLDING

A WORD FROM THE FOUNDER

Where we are going, and *how*.

OUR VISION

To be Africa's most trusted and forward-looking holding group — a home where exceptional businesses are born, grow and lead across borders and industries.

We envision a future where Senga Heritage stands as a global reference for ethical enterprise; where technology powers every venture we touch; and where our name is synonymous with resilience, integrity and enduring value.

OUR MISSION

To identify, develop and empower exceptional businesses — providing the capital, governance and strategic vision they need to lead in their markets.

Across Mining, Construction, Mineral Trading, Commodity Trading, Technologies, Gold Refinery, Investment and beyond — while building a heritage strong enough to be carried forward by generations to come.

Values that compound over a *lifetime*.

01 — INTEGRITY

The honest path, always. A deal won through dishonesty eventually collapses; a reputation built on trust becomes an asset that compounds for a lifetime.

02 — TECHNOLOGY

The great equaliser and the great accelerator of our time. From mining to construction, from trading to refining, technology is a priority — never an afterthought.

03 — DIVERSIFICATION

A philosophy of resilience. Standing across many sectors and many countries: when one door closes, another remains open; when one market slows, another rises.

04 — PERSISTENCE

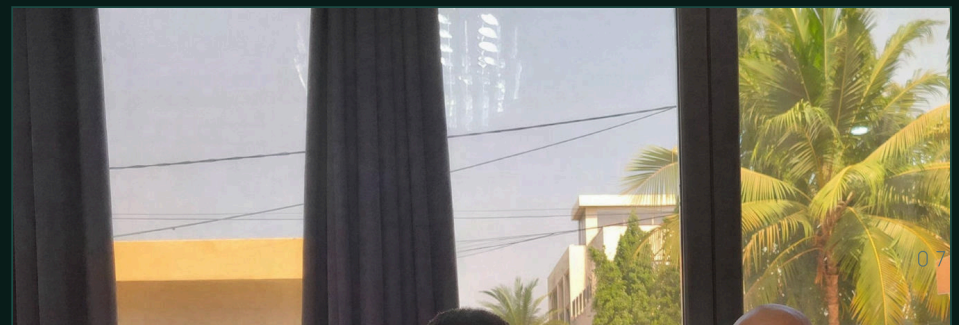

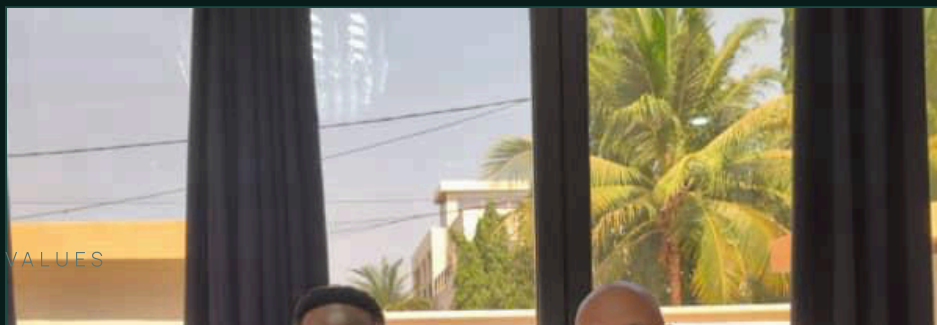

The true currency of success. Whatever the obstacle, keep going — storms pass, doors open, and those who refuse to give up always find a way forward.

05 — PARTNERSHIP

Partners over transactions. We build with people, not around them — because partnerships only last when they are built on trust.

06 — HERITAGE

Build something that outlives you. We each have the opportunity, and the responsibility, to build a heritage worth leaving behind.

From the mine to the *market*.

Few groups can trace their gold from the ground to the client's hands. Ours can — one family of companies capturing value at every link of the chain.

01

Explore & extract

SH MINING · GEM

Exploration and extraction of gold and precious metals across the African continent, supported by an established network of buying and selling counters — sourcing directly at the origin, where value begins.

02

Refine — 99.99%

KNIGHT BURKINA

One of the largest and most technologically advanced gold refineries on the continent transforms that raw wealth into refined gold at 99.99%, ready for international markets — on African soil, to international standards.

03

Transform

SH INDUSTRIES · RACCOLTA

Industrial investment and technology turn raw potential into finished value — manufacturing, green energy and advanced technology, with solutions proven inside the group before reaching the market.

04

Trade & deliver

SAMEN · INTER AFRICAN TRADE

Precious metals and commodities move to the global market through the group's trading houses — sourcing where value is created, delivering where demand is greatest.

05

Build & connect

INFRACONS GROUP · ACUMEN TM

Turnkey construction delivers the infrastructure that carries it all, while a Triple-A advisory platform connects global capital with vetted opportunities across Africa.

Seven sectors. One *value chain*.

Diversification is not just a financial strategy — it is a philosophy of resilience. Each sector strengthens the others.

MINING & EXPLORATION

Exploration and extraction of gold and precious metals across Africa — building long-term reserves at the origin. SH Mining · GEM

GOLD REFINERY

Refining Africa's gold to 99.99% to international standards — state-backed and technologically advanced. Knight Burkina

CONSTRUCTION

Ambitious turnkey building and public-works projects across Africa — the flagship and cornerstone of the group. Infracons Group

MINERAL TRADING

Precious-metals trading houses sourcing at the origin and delivering to the global market. Samen

COMMODITY TRADING

Moving commodities across African markets and beyond — the connective tissue of the group. Inter African Trade

TECHNOLOGIES

The technology engine — solutions proven inside a real multinational group, then taken to market from Dubai. Raccolta

INVESTMENT & ADVISORY

Industrial investment and Triple-A brokerage — connecting capital with opportunity. SH Industries · Acumen TM

Nine companies. One *heritage*.

A constellation of operating companies, each a leader in its field — bound together by shared governance, capital and vision.

Infracons Group

CONSTRUCTION

Flagship & pioneer — turnkey building and public works across Africa.

SH Mining

MINING

Exploration, extraction and trading of gold and precious metals.

GEM

EXPLORATION

Gulf capital meets African gold — concessions, exploration, tailings.

Knight Burkina

GOLD REFINERY

99.99% refining, with the State of Burkina Faso as a shareholder.

SH Industries

INDUSTRY

Industrial investment — manufacturing, green energy, advanced tech.

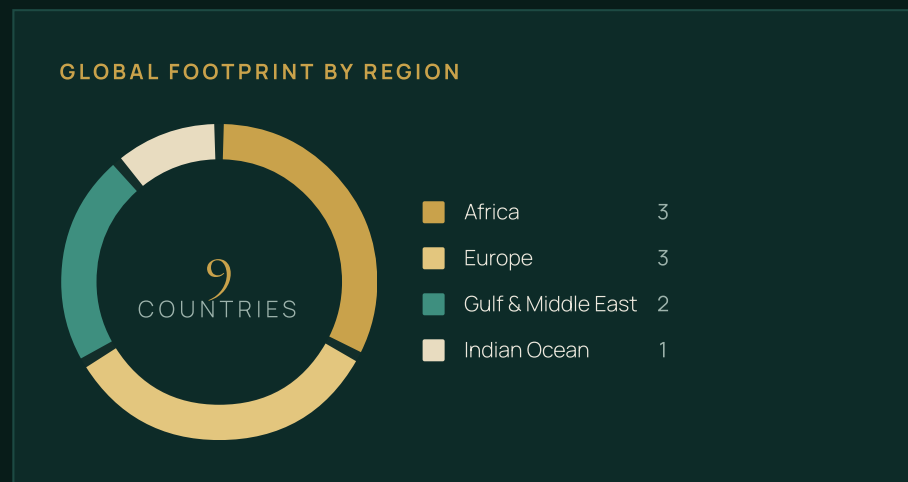

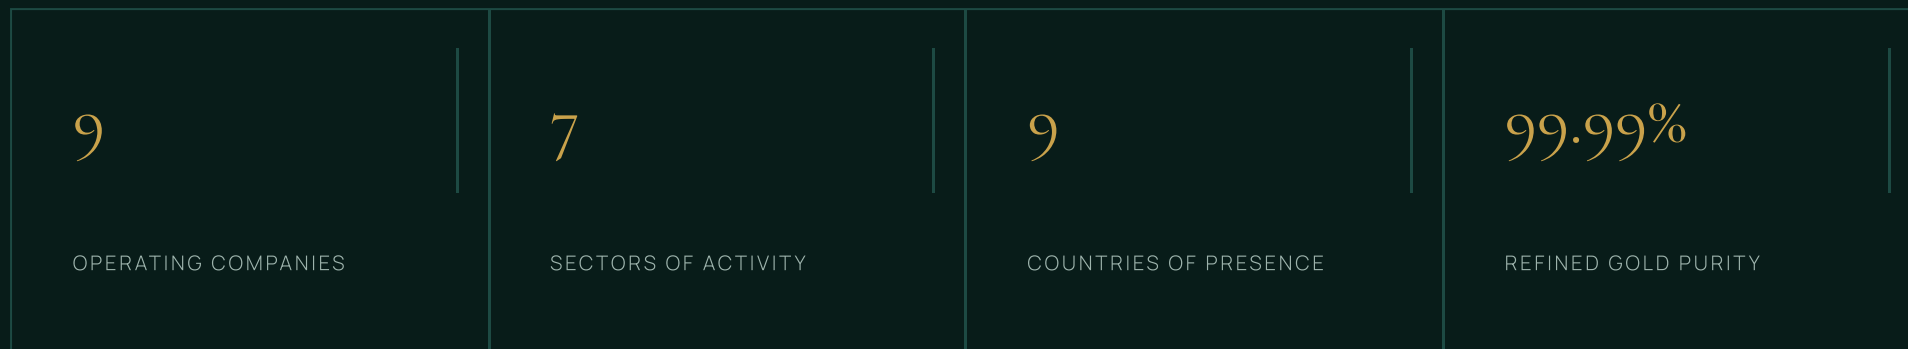

Samen Company

PRECIOUS METALS

Trading, secure storage and market insight — excellence in every ounce.

The group in *numbers*.

Portfolio and footprint shown by number of companies and countries. Figures reflect the group's operating structure.

Infracons Group

“Au-delà des horizons”

SECTOR	PRESENCE	ROLE IN THE GROUP
Construction & public works	Africa	Flagship & pioneer

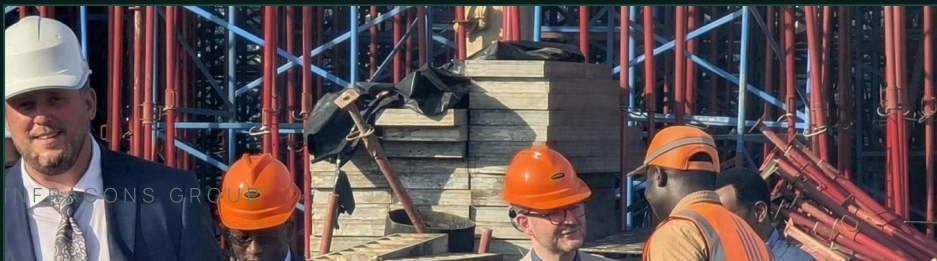

Infracons Group is a construction and investment company specialising in building and public works, delivering ambitious projects across the regions of Africa. By combining cutting-edge construction technologies with a highly qualified team of engineering and project-management professionals, it transforms complex challenges into landmark achievements — on time, on budget, and built to last.

For over a decade, Infracons Group has earned its reputation as a trusted contractor of choice, renowned for its complete turnkey solutions. From first blueprint to final handover, the company takes full ownership of every stage of a project — giving clients a single, reliable partner and results they can stand behind.

This track record has enabled Infracons Group to forge powerful alliances with major financial institutions and reputable international companies, giving it the strength and reach to undertake large-scale, multidisciplinary projects that few can deliver.

As the pioneer and flagship of Senga Heritage, Infracons Group is more than a construction company — it is the foundation stone of the entire group, and living proof of the vision on which the heritage was built.

www.infracons-group.com

SH Mining

“Unlocking Africa’s natural wealth”

SECTOR	PRESENCE	ROLE
Mining & exploration	Multi-country · Africa	Source of the chain

SH Mining is the mining arm of Senga Heritage, providing world-class solutions for the development and exploitation of precious resources, with deep expertise across the full mining value chain — from exploration to extraction to trade. Operations focus on exploration across several countries of the African continent, with particular strength in gold and precious metals.

Through an established network of buying and selling counters, SH Mining commands a strong position in the precious-metals trade, sourcing directly at the origin. This dual model — exploration on one side, trading on the other — builds long-term asset value while generating consistent revenue flows across market cycles.

GEM — Gulf Exploration & Mining

“Where Gulf capital meets African gold”

SECTOR	PRESENCE	ROLE
SH Mining Exploration & mining	Kuwait · Africa	Gulf-backed gold strategy

Knight Burkina

“Where Africa’s gold meets world-class refining”

SECTOR	PRESENCE	ROLE IN THE GROUP
Gold refinery	Burkina Faso	The crown of the chain

For generations, Africa's gold left the continent raw — refined elsewhere, valued elsewhere. Knight Burkina was built to change that. It is a gold refinery company based in Burkina Faso, home to one of the largest and most technologically advanced gold refineries on the continent, purpose-built to international standards.

What truly distinguishes Knight Burkina is the strength of the partnership behind it: local shareholders, reputable international investors, and the **Government of Burkina Faso itself as a shareholder**. This rare alliance of private enterprise and state partnership provides something invaluable in the gold industry — stability, legitimacy and trust at the very highest level.

Within Senga Heritage, Knight Burkina is the crown of an integrated gold value chain. Where SH Mining and GEM explore, extract and source at the origin, Knight Burkina transforms that raw wealth into refined gold at 99.99%, ready for international markets.

For investors, the proposition is clear: a state-backed, technologically superior refinery positioned in one of Africa's most important gold-producing nations, anchored by the governance and financial strength of a multinational holding.

99.99% KNIGHT BURKINA	State	Top	I
--------------------------	-------	-----	---

SH Industries

“Building the industries that build the future”

SECTOR	PRESENCE	ROLE
Industrial investment	Africa	The transformer

SH Industries is the industrial investment arm of Senga Heritage, holding strategic stakes in a diverse range of industrial businesses. Its creation marks a significant step forward in the group's commitment to fostering innovation, economic growth and sustainable development.

Investments are deliberately focused where the future is being built: cutting-edge manufacturing, green energy solutions and advanced technology sectors. Where sister companies extract, refine, build and trade, SH Industries transforms — turning raw potential into finished value, and cyclical markets into durable industrial assets.

www.sh-industries.com

Raccolta

“The technology engine of Senga Heritage”

SECTOR	PRESENCE	ROLE
SH Technologies · RACCOLTA	Dubai · Egypt · Burkina Faso	Technology first

Samen Company

“Excellence in every ounce”

SECTOR	PRESENCE	ROLE
Precious-metals trading	Global	Final link to market

Samen Company is the precious-metals trading house of Senga Heritage, excelling in the global trade of gold and precious metals — serving private investors seeking a safe haven for their wealth as well as institutions and traders operating at the highest levels of the international market.

Its services cover the full spectrum of the trade: buying and selling at competitive prices, secure storage solutions with uncompromising standards, and market insights that turn information into advantage. Everything rests on three commitments: integrity, transparency and excellence.

Few trading houses in the world can trace their gold from the ground to the client's hands — Samen can.

www.samengt.com

Inter African Trade

“Connecting the markets of a continent”

SECTOR	PRESENCE	ROLE
SAMEN · INTER AFRICAN TRADE Commodity trading	Rwanda · Burkina Faso · Egypt	The commercial engine

Acumen TM

“Where opportunity meets its match”

SECTOR	PRESENCE	ROLE IN THE GROUP
Brokerage & advisory	Africa · Global	The bridge

The world is full of capital searching for opportunity, and opportunity searching for capital. What is rare is the bridge between them. Acumen TM is the strategic brokerage and advisory company of Senga Heritage — a Triple A (AAA) One-Stop Center: a networking platform of the highest grade, connecting global first-class companies to carefully selected opportunities in Africa.

The method is rigorous and complete. Acumen TM identifies and profiles the most promising projects across the continent, vetting each one before it ever reaches an investor's desk. It then assembles the right international companies to provide and implement the projects, investment, solutions and services required — serving both private and public sectors, with seven-star discretion at every step.

The platform moves in both directions: for global companies and investors it opens doors that are otherwise closed; for governments and local institutions it presents national projects to serious international players.

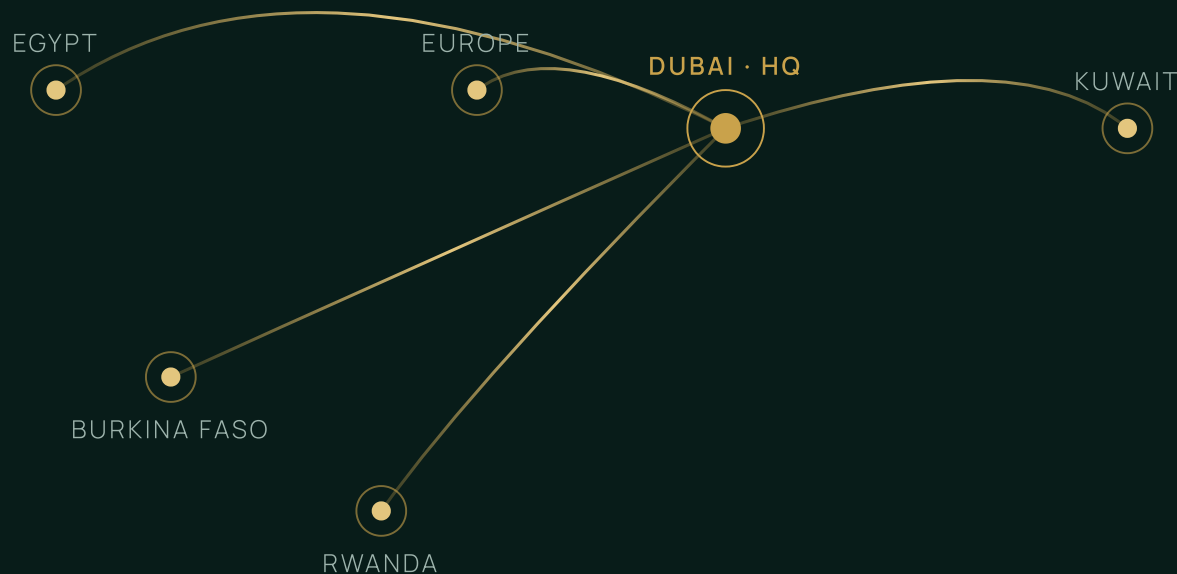

Its greatest asset is the group behind it. When Acumen TM presents an opportunity, it does so with the credibility of a group that puts its own capital to work in the same markets.

www.acumen-tm.com

A bridge between Gulf capital & African *wealth*.

Headquartered in Dubai — one of the world's great crossroads — Senga Heritage connects the capital of the Gulf with the resources of Africa, and the markets of the world beyond.

HEADQUARTERS

Dubai, UAE

Meydan Grandstand, Nad Al Sheba — the group's governance and financial hub, and the technology base of Raccolta.

WEST AFRICA

Burkina Faso

Home to Knight Burkina — one of the continent's largest gold refineries, with the State as a shareholder — and to trade operations.

On the *ground*.

Construction sites, industrial yards and field operations — where Infracons Group and the industrial companies of the group deliver.

THE GROUP IN ACTION

Partnerships & *institutions.*

Signatures, official visits and boardroom decisions — the alliances with governments, investors and major groups on which the heritage is built.

The mark of the *heritage*.

Our golden emblem captures the spirit of Senga Heritage: renewal, resilience, and lasting legacy — worn as a pin and carried by those who build with us.

Phoenix

Rebirth, reinvention and enduring value.

Rising Sun

New opportunity and growth.
